CAREER OBJECTIVE

Passionate and results-driven Software Engineer with a strong foundation in troubleshooting complex technical issues, system design/architecture, Problem solving and optimizing system performance. Leveraging expertise in Java (Spring Boot), TypeScript(Next Js/ React Js), Python(Flask), Machine Learning and distributed systems architecture. Eager to apply proactive problem-solving skills, innovative thinking, and a collaborative mindset to drive software development excellence and achieve strategic business objectives.

EXPERIENCE

Precisely

July 2023 - Present

Software Engineer I

- My current title is of "Support Engineer I" but my roles and responsibilities coincide with Software Development Engineer.
- Implementation of Sterling Integrator with AWS [EC2, S3, IAM, etc]
- Spearheaded implementation of Kafka, Docker, OCP (K8s), OAuth 2.0 with Sterling Integrator
- Implementation of Distributed System Architecture using Sterling Integrator and Global Mailbox, demonstrating expertise in distributed systems.
- Engaged directly with stakeholders for product feedback, driving product enhancements and improvements.
- Knowledge and implementation of cloud(AWS, Azure), CI/CD, Github, SQL queries, Java, Python, Aglie and scrum methodology.

Precisely Feb 2022 - July 2023

Associate Software Engineer

- My title is of "Associate Support Engineer" but my roles and responsibilities coincide with Software Development Engineer.
- Created API endpoints for customers using Python, Node js/ React Js / Next Js
- Analyzed and optimized business-critical systems, saving millions by automating database maintenance, enhancing API endpoints, tuning system & adapters, analyzing thread dumps, etc
- Collaborated closely with cross-functional teams (Product managers, Designers, and Other developers) to enhance system performance and stability, receiving accolades for effective communication and problem-solving skills.
- Developing new user-facing features using React.js
- Building reusable components and front-end libraries for future use.
- Translating designs and wireframes into high-quality code.
- Understand business requirements and translate them into technical requirements.

Persistent Systems Limited

Machine Learning (Internship)

- Created end to end application using Flask framework in Python for backend, API endpoint, Machine Learning Model, JavaScript, UI/UX, MYSQL, CSS, HTML5
- Helped company create a machine learning model which accurately predicts potential Customer for their insurance plan [accuracy level : 70
- Involved in developing both frontend and backend of the application then deployed on company's internal network

PERSONAL PROJECTS

- Your Personal AI Friend

- * Live Link: https://portfolio1.bshreyasharma.com/
- * GitHub Link: https://github.com/bshreyasharma007/ai-friend
- Next.js, React.js, Typescript, JavaScript, Redis(Cache), HTML5, CSS3, JavaScript, SQL, REST API, Pinecone (Vector database), Github Vercel CI/CD pipeline
- Platorm where one can create AI models of famous people (celebrities, economist, etc) using Open AI API machine learning model.

- HTML CSS to ATS Friendly Resume Maker

• Developed an in-house HTML/CSS to ATS-friendly resume converter, providing a free alternative to paid services using Next Js, Tailwind CSS, TypeScript.

SKILLS

Technical Skills:

- -OS: Linux, AIX, Windows
- -Programming Language: Java, TypeScript (JavaScript), Python, C, C++
- -Database: Redis(Cache), Kafka, IBM Websphere MQ(Messaging Queue), IBM DB2, MS SQL, Oracle, MongoDB, Pinecone (Vector Database for Machine Learning LLM Models)
- -Framework: Next Js(TypeScript), React Js(TypeScript), Java(Spring Boot)

- -Cloud: AWS, Azure
- -Other Relevant Skills: Machine Learning & Artificial Intelligence, ChatGPT, Bard, Tensorflow, Numpy, CI/CD DevOps, Github, Git, Containerization (Docker, OCP), HTML5, CSS3, JavaScript, SQL, Hibernate, JPA, Prisma

Soft Skills:

- -Excellent Communication & Written skills, recognized for effective client and team interactions.
- -Strong problem-solving abilities with a structured approach to troubleshooting and issue resolution.
- -Leadership qualities demonstrated through leading projects and driving collaborative efforts.
- -Proactive Self learner with a disciplined and self-motivated approach to continuous improvement
- -Other Relevant Skills: Creativity, Critical Thinking, Empathy, Clarity of thoughts, Understanding Business Requirement, Holistic understanding how the product impacts the macro economics, Problem solving, Logic Building, troubleshooting,

ACHIEVEMENTS

• Spot Award for immense contribution towards business success in 2023

EDUCATION

Symbiosis Institute of Technology Pune, India

Jul 2016 - October 2020

Bachelor of Technology in Computer Science

Coursework: Operating System, Computer Network, Database Management System, Data Structure & Algorithm, System Design, Distributed Systems, Machine Learning, Artificial Intelligence
